

Now, it's the time to tell people about your Fan Page. To suggest this page to your friends, use the option 'suggest to friends' available on your page.

You can select all of your friends and can suggest this fan page. **Believe me**, if you send request to 500 people only then you will be having 5000 or more fans in 5-6 days only, if you work properly.

How, it will happen?

When you see that many of your friends have become fan of your fan page then ask them to suggest this page to their friends. Repeat this process and you will be having tremendous growth. If you keep on posting interesting & relevant things about your niche on your fan page then it will be indexed in search engine, very quickly. People who are making searches about your niche, will find it interesting and will become fan of it, even if they are not in your friend list.

Great! Now you are receiving SE traffic too, now. You know, when I was having near about 5000 friends and I suggested my page to my friends then on the NEXT DAY ONLY, I got more than 138 MESSAGES from different people who said that THEY LIKED MY FAN PAGE!

At a **5000 Friends Level** when your friends become fan of your page, it is posted on their walls and their friends will also like to see your page and then their friends... and so on... Your work is to just wait and watch now! Just see how quickly, near about 200-250 more people are becoming fan of your page, EVERDAY!

But, remember, your first work is to add 5000 friends. ***Make it your Passion!***

When I created my Fan page ON **8TH DAY** and *suggested it to my friends.*
After 2 hours of suggesting my fan page, I got many fans.

DAY – 9 (Next day after creation of my fan page)
